### Greenhouse gas limits help state

The article by Carl Guardino, CEO of the Silicon Valley Leadership Group (Opinion, Aug. 30), highlights the reason why we should all celebrate the compromise reached on Assembly Bill 32. Its landmark restrictions on greenhouse gases are a victory for all Californians. The bill will help to clean the air we breathe and reduce the risk air pollution poses to our

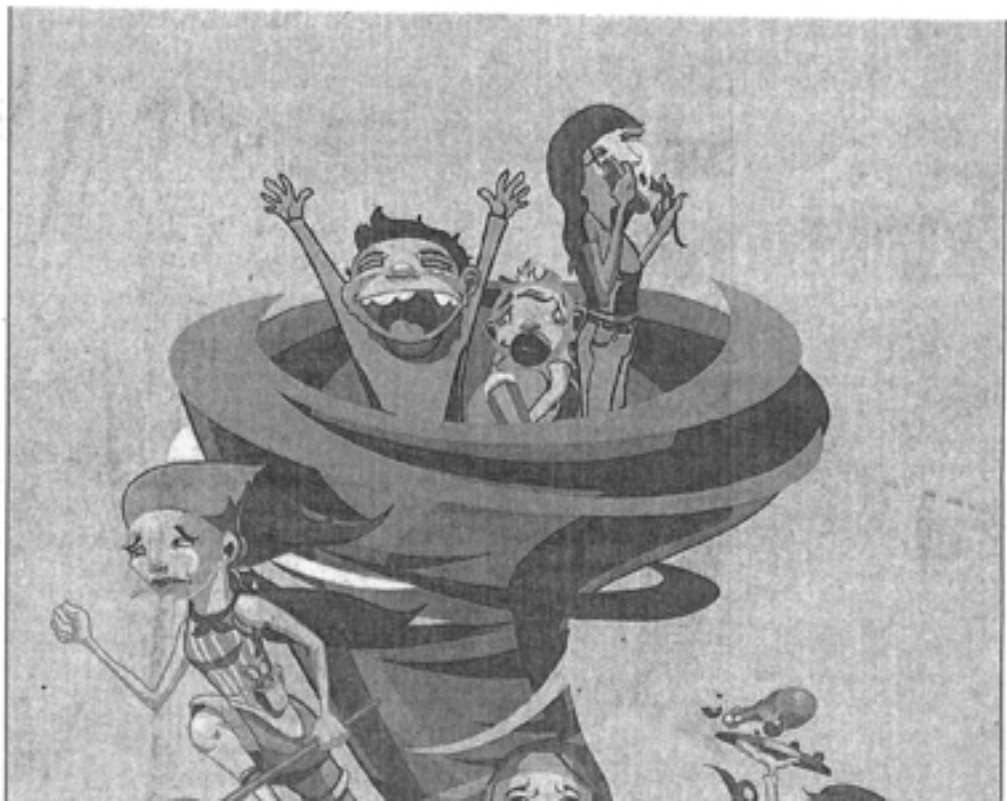

health — especially among children, seniors and those with heart or lung disease. In addition, this measure will spur the development of new energy alternatives here in California, which will improve the environment, benefit business and reduce our dependence on foreign oil. This legislation moves our state along a path to a cleaner and healthier tomorrow.

### Nuclear power best route to clean air

It is obvious that there is very little knowledge of sci-

sources. The only way it can be done is by nuclear energy. The Legislature should stop being misled by the renewable lobbyists and modify the
